

FIG. 6

FIG. 7

FIG. 8

Co-encapsulation

Library + Eukaryote

Growth and expression

of small molecule from library

Receptor binding of small

molecule & GFP reporting

E=Eukaryotic assay organism

L=Large insert library

SM=Small molecule

GFP= Green fluorescent protein

R=Eukaryotic receptor

FIG. 14

Test organisms

encapsulate

Pathway clones

*live/dead or other
activity stain*

sort

*bioactive expression
(e.g. live/dead, growth rate,
metabolic stains etc.)*

FIG. 15
